ABSTRACT

Data in this report were derived from the 1991 annual reports submitted by public libraries in Texas and reflect each library's local fiscal year. The report begins with general information about the Texas State library system, including addresses of agencies and names of administrative personnel. A directory of public libraries and branches is included. Summary statistics for the state public libraries are listed in chart form, with 10 illustrative figures, 13 analytical tables, and 5 figural maps of state libraries. Part IV of this report lists the public libraries by system in a 20-page chart. In Part V, libraries are listed individually in a 194-page table. A listing by county (23 pages, Part VI) completes the breakdown. Characteristics of interest for the Texas libraries are expenditures, income, the size of the library collection, local services and circulation, staffing data, and information about facilities. Three appendixes list library board chairpersons, presidents of Friends of the Library organizations, and the 1991 annual report form and instructions. An index is provided. (SLD)

FOREWORD

The data published in this volume were taken from the 1991 Annual Reports submitted by public libraries in Texas. The statistics reflect each library's 1991 local fiscal year, defined as the fiscal year which includes January 1, 1991.

The membership year noted in the statistics is State Fiscal Year 1993 (September 1, 1992 to August 31, 1993). "Member" indicates that the library met the criteria for membership in the Texas Library System, individually or as part of a federated library system (FLS).

The "population served" figures given for each library were calculated by State Library staff in accordance with the Rules for Administering the Library Systems Act. The basic source used was the 1990 Census of Population and Housing, Summary Population and Housing Characteristics, Texas, No. 1990 CPH-1-45, U.S. Department of Commerce, Bureau of the Census, Issued August 1991.

This year's edition of the Texas Public Library Statistics is basically unchanged from the format of previous years. We have continued to include the Analytical Tables in Section III to be used as a complement to the Guidelines for Texas Public Libraries published by the Public Library Division of the Texas Library Association. We have also included in this edition a series of maps which provide a graphic demonstration of five service inputs and outputs by county. The maps, which can be found in the Summary Statistics part of this report (Section III), were created on Datanet Plus Mapping software created by the State of Minnesota and supplied to the State Library by the U.S. National Commission on Libraries and Information Science of the U.S. Department of Education.

We would like to gratefully acknowledge the efforts made by all public librarians for their cooperation in collecting and reporting the data contained in this volume. We would also like to thank the system coordinators and consultants in the ten Major Resource Systems for their help in gathering and checking the reports from their regions.

Thanks also go to the State Library staff who worked together to produce this report. Hsian-Fen (Tina) Tsao created the master pages and formatted the data. Elizabeth (Bell) Clarke spent many hours reading the Annual Report forms, double-checking the data, consulting with librarians to complete the forms, entering the data into the database, and proofreading the final product. Kay Steed also proofed the report and Elsie Selfridge also entered data. Kay Easter did the formatting and layout of much of the manual. Lisa deGruyter did programming which allowed creation of the analytical tables and the maps in Section III.

Questions concerning this publication and suggestions regarding next year's edition should be directed to the Library Development Division, Texas State Library, Box 12927, Austin, Texas 78711; (512)463-5465.

LIBRARY USE CHARGES AND FEES

Rule 1.72 of the Rules for Administering the Library Systems Act requires a public library to "provide library services without use charge to all persons residing in the library's tax supporting political subdivision."

The only exceptions at the discretion of the library's governing authority are: "reserving library materials; use of meeting rooms; replacement of lost borrower cards; fines for overdue, lost or damaged materials in accordance with local library policies; postage; in-depth reference services on a contractual basis; photocopying; library parking; service to non-residents; sale of publications; rental and deposits on equipment; and charges for the use of materials and machine-readable data bases not owned by the library, major resource center, or regional library system for which the vendor or supplier has charged a borrowing fee."

Please describe charges assessed to residents for any library services NOT listed in Rule 1.72 above. Also, please identify the fee structure. Use an additional page if necessary.

INSTRUCTIONS

Please read these instructions carefully.

Annual Report/System Membership Application Form
1991

Texas State Library

INSTRUCTIONS

The Texas State Library is participating in a national public library data collection system. The purpose of this system is to ensure the collection of comparable data in all states. These data will be useful in the creation of a composite report on the public libraries of the United States by the National Center for Education Statistics. They will also be useful in state-to-state comparisons.

Definitions are important to ensure comparability of data from different libraries and states. For the most part, these definitions were taken from the standard for library statistics approved in 1983 by the National Information Standards Organization (Z39).

Estimates are important if exact data are not available. Reporting libraries should not leave any items blank. They should enter "0" if the appropriate entry for an item is zero or "none" and enter "N/A" if an item does not apply to a particular library. If an exact figure is not available for a particular item but it is known that the amount is greater than zero, the librarian should ENTER AN ESTIMATE OF THE AMOUNT and indicate that the figure is an estimate by enclosing it in brackets.

Public libraries are encouraged to collect data in all categories so that estimates will not be necessary in future years.

All questions relate to fiscal year 1991, i.e., the year that ended in calendar year 1991 and included January 1, 1991. Libraries which experienced a change in fiscal year should contact Bell Clarke at the Texas State Library for assistance.

GENERAL INFORMATION

All information about your library and library personnel should be reported exactly as you wish it to appear in the directory section of *Texas Public Library Statistics for 1991*. If the HEAD LIBRARIAN position is vacant, write "Position Vacant" on the form. If you do not want your telefax number to appear in the directory, please omit.

Some county, multi-county, and regional library systems have a main library. Such library systems may have a headquarters office with a different name. If the headquarters' address is the same as the main library's, the main library should be listed as a branch of this headquarters on page 8.

OUTLETS AND USERS

This section requests information on public service outlets. Report figures as of the last day of the fiscal year.

BRANCH LIBRARIES. Branch libraries are auxiliary units which have all of the following: (1) separate quarters, (2) a permanent basic collection of books, (3) a permanent paid staff, and (4) a regular schedule for opening to the public. They are, however, administered from a central unit. Regional or divisional centers should be counted as branches.

BOOKMOBILE. A truck or van especially equipped to carry books and other library materials and serve as a traveling branch library. Count vehicles in use, not stops.

OTHER PUBLIC SERVICE OUTLETS. Include collections in nursing homes, jails, etc.

LIBRARY EXPENDITURES AND INCOME FROM ALL SOURCES

Expenditures and income have been divided into three sections in order to facilitate reporting: Categories of Expenditures, Local Financial Effort, and Library Income by Source.

All operating and capital expenditures should be reported on page 2, Categories of Expenditures, which includes specific items that appear in most library operating budgets (Items 1-10). All other expenses should be reported in Item 11 so that Item 13 is a total of all direct operating expenditures. Capital expenditures will appear in Item 16.

Note: These expenditures are from all sources of funds, including federal, state, and foundation monies. Report only those grant awards directly spent by your library. Except for Major Resource Center Libraries, most public libraries would not report expenditures from a state grant. Definitions of sources of funds (e.g., federal funds) appear as instructions for items 20-28.

Categories of Expenditures

OPERATING EXPENDITURES. The current and recurrent costs necessary to the provision of library service, such as personnel, library materials, binding, supplies, repair or replacement of existing furnishings and equipment, and costs incurred in the operation and maintenance of the physical facility. Expenditures represent actual payments. The information reported in Categories of Expenditures may differ from the information reported in Library Income by Source. Do not report grant funds spent on behalf of your library by some other entity. For example, don't report funds spent by your Major Resource System library for your library. Don't report salaries not paid by the library or the governing or contracting authorities, as in the case of Green Thumb employees or employees paid under a training program administered through another entity.

Note: Local accounting practice will generally determine whether a particular expense is operating or capital.

SALARIES AND WAGES (Item 1). This amount should be the salaries and wages for all library staff except plant operation, security, and maintenance staff. Salaries for plant operation, security, and maintenance staff, if paid from the library budget, should be reported in Item 11. Include salaries and wages before deductions, but exclude "employee benefits." Include longevity, merit, and other funds paid directly to employees.

EMPLOYEE BENEFITS (Item 2). The benefits outside of salary and wages paid and accruing to employees except plant operations, security, and maintenance staff, regardless of whether the benefits are available to all employees. Include amounts spent by the library for direct, paid employee benefits including Social Security, retirement, medical insurance, life insurance, guaranteed disability income protection, unemployment compensation, worker's compensation, tuition, and housing benefits. If these benefits are not paid from the library budget mark N/A. Such benefits may be reported as an indirect cost in Item 14.

PRINT MATERIAL (Item 4). Material consisting primarily of words and usually produced by making an impression with ink on paper. Included in this category are materials that do not require magnification: books, bound periodicals, government documents, braille material, ephemeral print material, and the like.

SERIAL (Item 5). A publication issued in successive parts, usually at regular intervals, and, as a rule, intend to be continued indefinitely. Serials include periodicals (magazines), newspapers, annuals (reports, yearbooks, etc.), proceedings, and transactions of societies.

MICROFORM (Item 6). A photographic reproduction of textual, tabular, or graphic material reduced in size so that it can normally be used only with magnification. The two main types of microforms are microreproductions on transparent material, including roll microfilm, aperture cards, microfiche, and ultrafiche, and reproductions on opaque material.

AUDIOVISUAL MATERIALS (Item 7). Library materials that are displayed by visual projection or magnification or through sound reproduction, or both, including graphic material, audio material, motion pictures, and video material; also the special visual materials such as cartographic and three-dimensional material.

OTHER MATERIALS (Item 8). Include all expenditures for materials not reported in Items 4-7 (for example: software, CD-ROM databases, games, toys, art prints, sculpture, etc.). Do not include supplies; report them in Item 11, Other Operating Expenses.

SUBTOTAL COLLECTION (Item 9). Add Items 4 through 8. If a library is not able to provide details requested in these items but can provide a subtotal figure, it should be reported in Item 9.

FURNITURE AND EQUIPMENT (Item 10). Include expenditures for all furniture and equipment purchased during the fiscal year if they are not considered capital expenditures. May include microform equipment, audiovisual equipment, and computer related equipment.

OTHER OPERATING EXPENSES (Item 11). Include all expenditures other than those given in Items 1-10. Include system operations software if it is not included in cost of hardware. Include applications software for microcomputers used only by staff.

TOTAL DIRECT OPERATING EXPENDITURES (Item 13). Add Items 3 + 9 + 12.

INDIRECT COSTS (Item 14). Item 14 is optional. Libraries are urged to exclude indirect costs unless there is a specific need to report them. Indirect costs (or overhead) are those costs incurred for a common or joint purpose benefiting more than the library department and not assigned to the library's budget. Examples of costs that may benefit the library but may not be included in the library budget are building maintenance, motor pool, procurement, personnel administration, data processing, utilities, etc.

Indirect costs can be derived by applying the library's indirect cost rate or by costing out specific services (e.g., the cost of utilities when utilities are not a budgeted item in the library's budget). Reported indirect costs must be documented in a supplemental letter or in an indirect cost allocation plan. Along with the documentation of how the costs were derived, the letter must be signed by a governing official. Where an indirect cost rate is used, the rate must have been determined in accordance with the Uniform Grant and Contract Management Act of 1981, Texas Civil Statutes, Article 4413 (32g).

TOTAL OPERATING EXPENDITURES (Item 15). Add Items 13 + 14.

CAPITAL OUTLAY (Item 16). Expenses for the acquisition of or additions to fixed assets such as building sites, new buildings and building additions, new equipment (including major computer installations), initial book stock, furnishings for new or expanded buildings, and new vehicles. This excludes replacement and repair of existing furnishings and equipment, regular purchase of library materials, and investments for capital appreciation.

Note: Local accounting practices shall determine whether a specific item is a capital expense or an operating expense.

Local Financial Effort

These are questions unique to Texas and pertain to the requirements for continued system membership, Library and Archives Commission (Title 13 Texas Administrative Code Sections 1.74, 1.77, and 1.81).

Report in Item 17 the amount spent for library materials from local funds only. That is, the amount from city, county, school district, and other local sources used to buy the library materials reported in Item 9.

Report in Item 18 the amount of funds expended by the public library in FY 1991 for total operating purposes from local funds (city, county, school district, and other local sources such as fines, memorials, and monetary gifts.) This will be used to determine if your library is meeting the maintenance of effort requirements for system membership. Exclude major capital and one-time only expenditures. Include indirect costs only if they are necessary for maintenance of effort and have been reported and documented in Item 14. All the expenditures reported in Item 18 must have also been reported in Items 1-15.

In Item 19, report the amount of total operating expenditures that were from local government sources (city, county and school district funding). If you use the figure in Item 18 and subtract the funds that came from "other local sources" (interest, fines, donations, etc.), this will be your expenditures from local government sources only.

Library Income by Source

The total funds reported as Library Income on page 3 will not equal the total of expenditures reported on pages 2 and 3 unless the library expends every dollar of income it receives. Do not report grant funds spent on behalf of your library by some other entity. For example, don't report funds spent by your Major Resource System library for your library. Don't report salaries not paid by the library, as in the case of Green Thumb employees or employees paid under a training program administered through another entity.

OPERATING INCOME. Report income received for operating expenditures, (see page 2). Include federal, state or other grants, except those used for capital income. Do NOT include income for major capital expenditures, construction, renovation, endowment fund deposits, other extraordinary items, income passed through to another agency (e.g., fines), or funds unspent from previous fiscal years.

CAPITAL INCOME. Report income received for major capital expenditures, construction, renovation, endowment fund deposits, or other extraordinary items. Do NOT include income passed through to another agency (e.g., fines), or funds unspent from previous fiscal years.

LOCAL GOVERNMENT SOURCES (Items 20-22). All tax and nontax receipts appropriated by the city, county, or school district to the public library and available for expenditure by the public library. Do NOT include here the value of any contributed or in-kind services or the value of any gifts and donations, fines, or fees.

FOUNDATIONS AND CORPORATE GRANTS (Item 23). Cash grants from private foundations or corporations.

BEST COPY AVAILABLE

FEDERAL LIBRARY SERVICES AND CONSTRUCTION ACT (LSCA) FUNDS (Item 24). All funds from the LSCA distributed directly to your library for expenditure by the public library either from the federal or state government. Do not include grants to a library system.

OTHER FEDERAL FUNDS (Item 25). All other revenue from the federal government other than that reported in Item 24 and distributed directly to your library for expenditure by the public library, including such federal monies distributed by the State.

STATE FUNDS (Item 26). All revenue from funds collected by the State and distributed directly to your library for expenditure by the public library, except for federal monies distributed by the State. Do not include grants to a library system.

OTHER LOCAL SOURCES (Item 27). Report all income other than that reported in Items 20-26. Include, for example, monetary gifts, or donations from individuals, interest, fines, and fees. Do not include the value of any contributed services or the value of "in-kind" gifts and donations.

GOVERNMENTAL SPONSORS. If your library receives monies from more than one city or county, you are asked to report those funds and governmental units here.

LIBRARY COLLECTION

Note: Unless otherwise indicated, report for each item, titles and physical units held at the end of the fiscal year. Physical units are volumes, items, or pieces. For reporting purposes, a title is a publication which forms a separate bibliographic whole, whether issued in one or several volumes, reels, discs, disks, slides, or parts. The term applies equally to printed materials, such as books and periodicals, as well as to audiovisual materials and microforms. Libraries should report the number of titles and units owned, both cataloged and uncataloged.

METHOD FOR ESTIMATING THE NUMBER OF TITLES IN THE COLLECTION:

For libraries with a shelflist on cards:

A library which does not maintain a title count of its various collections, and that cannot easily count the number of separate shelflist cards, should use the following method for estimating this count:

1. Pressing the cards tightly together, measure the total number of inches in the shelflist.
2. Using the same amount of pressure, measure one inch of cards in the shelflist. Count the number of titles contained in the inch.
3. Repeat step 2 at regular intervals (for example, count one inch in every foot, every three feet, or other pre-established interval) to ensure measuring at least seven sample inches distributed throughout the shelflist.
4. Average the number of titles per inch in the samples. If any sample varies from the average by more than four cards, repeat steps one through four, applying pressure more uniformly to the cards.
5. Multiply the average titles per inch by the total number of inches of cards in the shelflist.

For libraries with an automated shelflist:

Most software systems include a method of determining number of titles. Libraries should use whatever method their software provides. If no method is available, an estimate should be made.

For uncataloged physical units, estimate number of titles.

BOOK (Item 29). A nonperiodical printed publication bound in hard or soft covers, or in loose-leaf format, of at least forty-nine pages, exclusive of the cover pages; or a juvenile nonperiodical publication of any length bound in hard or soft covers.

SERIAL (Item 29). A publication issued in successive parts, usually at regular intervals, and as a rule, intended to be continued indefinitely. Serials include periodicals (magazines), newspapers, annuals (reports, yearbooks, etc.) memoirs, proceedings, and transactions of societies. Except for the current volume, count unbound serials when the library has at least half of the issues in a publisher's volume.

UNCATALOGED PAPERBACKS (Item 30). Report the number of paperbacks which are not cataloged in the regular collection.

Note: To calculate the "number of materials per capita" for system membership purposes, the State Library will count your uncataloged paperbacks, up to 10% of your books and serials (Item 29). That is, if you report 20,000 volumes of books and serials and 3,000 uncataloged paperbacks, we will count 2,000 of the latter toward your membership requirement.

GOVERNMENT DOCUMENT (Item 31). A government document is any publication in book, serial, or other form of library material that is published by a government agency, e.g., the publications of federal, state, local, and foreign governments and of intergovernmental organizations to which governments belong and appoint representatives, such as the United Nations, Organization of American States, and the Erie Basin Commission. If government documents are cataloged and shelved with the regular collection they should be reported in Item 29. If they are kept in a separate collection, they should be reported in Item 31. Government documents in microform should be reported in Item 32.

MICROFORM (Item 32). See definition for Item 6.

AUDIO MATERIAL (Item 33). A generic term for material on which sounds (only) are stored (recorded) and that can be reproduced (played back) mechanically or electronically, or both. This includes audiocassettes, audiocartridges, audiodiscs, talking books, and other sound recordings.

FILMS (Item 34). The term film is used interchangeably with "motion picture" which is a length of film, with or without recorded sound, bearing a sequence of images that create the illusion of movement when projected in rapid succession (usually 18 or 24 frames per second). Motion pictures are produced in a variety of sizes (8, super 8, 16, 35, 55, and 70 mm) and a variety of formats (cartridge, cassette, loop, and reel).

VIDEO MATERIAL (Item 35). A generic term for material on which pictures, sound, or both are recorded. Electronic playback reproduces pictures, sounds or both using a television receiver or monitor.

MACHINE-READABLE MATERIALS (Item 36). Include both machine-readable data files and microcomputer applications software. Machine-readable data files are data files that exist in media such as punched cards, paper tape, magnetic tape and disks, digital videodiscs, and compact disks that are designed to be processed by a computer or other machine. Examples are U.S. Census data tapes and reference tools on tape or disk. Do not count bibliographic records used to manage the collection. Microcomputer application software contains instructions which direct the computer to perform some action. Examples are: Supercalc, dBase III or WordStar. (Do not report microcomputer software used only by library staff.)

OTHER LIBRARY MATERIALS (Item 37). Include all materials not already reported.

CURRENT SERIAL SUBSCRIPTIONS (Item 39). Report both paid subscriptions and gifts. Do not report number of individual issues. The total number of subscriptions in the library system, including duplicates, should be reported in Item 39.

LOCAL LIBRARY SERVICE

CIRCULATION TRANSACTION (Item 40). The act of lending an item from the library's collection for use generally (although not always) outside the library. This activity includes charging, either manually or electronically, and also renewals, each of which is reported as a circulation transaction.

REFERENCE TRANSACTIONS RECEIVED (Item 41). Report the total reference transactions. A reference transaction is an information contact which involves the knowledge, use, recommendations, interpretation, or instruction in the use of one or more information sources by a member of the library staff. The term includes information and referral service. Information sources include printed and non-printed materials, machine-readable databases (including computer-assisted instruction), catalogs and other holdings records, and, through communication or referral, other libraries and institutions and persons both inside and outside the library. When a staff member uses information gained from previous use of information sources to answer a question, report as a reference transaction even if the source is not consulted again during this transaction.

Note: It is essential that libraries do not include directional transactions in the report of reference transactions. A directional transaction is an information contact which facilitates the use of the library in which the contact occurs and which does NOT involve the knowledge, use, recommendation, interpretation, or instruction in the use of any information sources other than those which describe that library, such as schedules, floor plans, handbooks, and policy statements. Examples of directional transactions include giving instruction for locating, within the library, staff, library users, or physical features, etc., and giving assistance of a non-bibliographic nature with machines.

PERSONS ATTENDING PROGRAMS AND PRESENTATIONS BY LIBRARY (Item 42). Report actual counted number of persons attending programs and presentations sponsored by the library. Programs need not take place in the library, but the library must be the primary contributor in the planning or presentation. Examples are book talks, tours, and film programs. It is recommended that libraries use the method described in *Output Measures for Public Libraries, 2nd edition* (ALA, 1987). If this is not available, the first edition of the same title may be used (ALA, 1982).

IN-LIBRARY USE OF LIBRARY MATERIALS (Item 43). Report the total number of materials used by patrons in the library, but not checked out. Include reference books, periodicals, book stock, and all other library materials that are used WITHIN the library. It is recommended that libraries use the method described in *Output Measures for Public Libraries, 2nd edition* (ALA, 1987). If this is not available the first edition of the same title may be used (ALA, 1982).

LIBRARY VISITS (Item 44). Report the total number of persons entering the library, including persons attending activities, meetings, and those persons requiring no staff services. It is recommended that libraries use the method described in *Output Measures for Public Libraries, 2nd edition* (ALA, 1987) or the earlier edition (ALA, 1982).

CHECK-OUT PERIOD (Item 45). Indicate the number of days that you normally allow patrons to borrow books. For example, if you regularly check out books for two weeks, report this as 14 days. Only report the "standard" circulation period for hardbound books; do not report any special check-out periods for different types of items (best sellers, films, records, art prints, encyclopedias, etc., or renewals). Also, do not include any "grace periods" that you allow before overdue fines are imposed.

ADULT EDUCATION

Indicate whether your library offered any of the following adult education services last year, alone or with other agencies. Include services funded by local funds, system grants or other types of funding

ABE-ADULT BASIC EDUCATION CLASSES. Teaching adults basic reading, writing and arithmetic skills up to the 8th grade level. The classes are held in the library.

GED-GENERAL EDUCATIONAL DEVELOPMENT CLASSES. Teaching adults writing, social studies, science, reading and math from the 9th to the 12th grade levels. The classes are held in the library.

ESL-ENGLISH AS A SECOND LANGUAGE CLASSES. Teaching adults whose first language is not English how to speak and write practical everyday English. The classes are held in the library.

LITERACY TUTORING OR SMALL GROUPS. Teaching adults reading from 0 to 6th grade level, using a tutor one-on-one or with two or three students.

ESL-ENGLISH AS A SECOND LANGUAGE TUTORING OR SMALL GROUPS. Teaching adults whose first language is not English to read English from 0 to 6th grade level, using a tutor one-on-one or with one or two students.

FAMILY LITERACY. Teaching adults reading and/or reading development skills to use with their children, using a tutor or in classes.

WORKPLACE LITERACY. Teaching reading and problem solving skills to adult workers to improve the worker's competency in a specific job.

CHILDREN'S SERVICES

BABY LAPSIT. Programs designed to expose parents with children from 6 months to 18 months to songs, fingerplays and nursery rhymes. These programs enhance language development of children and parenting skills of adults, and introduces parents to resources of the library.

TODDLER PROGRAMS. Activities developed for parents and for toddlers (18 to 36 months) to present stories, fingerplays, exercises and songs for increased language development.

PRESCHOOL STORYTIME. Planned program of language-based activities, i.e., books, fingerplays, songs, puppetry, for the intellectual development of children ages 3 to 5.

DAY CARE CENTERS, NURSERY SCHOOLS OR PRESCHOOLS. Planned storytimes specifically for children 2 to 5 attending as an institutional group.

SCHOOL-AGE PROGRAMS. Programs such as storytelling, book discussions, crafts, speakers, or films, designed for children ages 6 to 13. Does not include summer reading programs.

LIBRARY TOURS. Group tours of your library facility to help children locate materials for homework assignments, information needs, scouting badges, etc.

COMPUTER CLASSES. Instructional sessions or workshops for children on use of in-house microcomputers for public use.

PROGRAMS IN ELEMENTARY SCHOOLS. Promotional visits to schools to present information about your library and books children might enjoy.

LIBRARY BOARDS

Check the appropriate items with information about your library board.

LIBRARY STAFFING AND SALARIES

Report figures as of the last day of the fiscal year. Include unfilled positions if a search is currently underway.

FULL-TIME EQUIVALENT EMPLOYEES (Items 46-49). To ensure comparable data 40 hours per week has been set as the measure of full-time employment. To compute full-time equivalents (FTE) of employees in any category, take the number of hours worked per week by all employees and divide it by 40.

LIBRARIAN (Items 46-47). Persons reported under this category usually do work that requires professional training and skill in the theoretical or scientific aspect of library work, or both, as distinct from its mechanical or clerical aspect. The usual educational requirement is a master's degree (or its historical antecedent) from a library education program accredited by the American Library Association (ALA). NCATE (National Council for Accreditation of Teacher Education) is not considered ALA accreditation.

ALL OTHER PAID STAFF (Item 48). Includes all other persons paid by the library budget except plant operation, security, and maintenance staff.

VOLUNTEER HOURS (Item 50). Indicate the total number of hours that were worked in the library by persons who were not on the library's payroll. Include volunteers, community service persons and those paid from non-library programs, such as Green Thumb.

HEAD LIBRARIAN'S SALARY (Item 51). Report the annual rate of pay for the head librarian (director) at the end of your fiscal year. Include merit, longevity, and other payments made directly to the individual. If the position is vacant, report the annual salary which you expect to pay when someone is hired.

RESOURCE SHARING

INTERLIBRARY LOAN (Items 53-55). An item of library material, or a copy of the material, is made available by one library to another upon request. The libraries involved in interlibrary loan are not under the same library administration. Report requests filled for your users by another library in Items 53 or 54. Report loans provided to other libraries in Item 55. Report both "specific item" and "subject requests" in this section. Interlibrary Loan Centers are located in the public libraries of Abilene, Amarillo, Austin, Corpus Christi, Dallas, El Paso, Fort Worth, Houston, Lubbock, and San Antonio.

LIBRARY HOURS

PUBLIC SERVICE HOURS PER WEEK (Unduplicated) (Item 57). The purpose of this question is to find out how many non-overlapping hours of library service were available to your patrons during a regular week last year. Count both main library, branches, and bookmobiles in the following way. If the library was open from 9:00 a.m. to 5:00 p.m. Monday through Friday, it should report 40 hours (8 hours per day times 5 days = 40). If the branches of this library were also open all or part of the same schedule, the total would remain the same.

However, if Branch A was also open from 7:00 p.m. to 9:00 p.m. one evening each week, this would increase the total by 2 hours. The total number of non-overlapping hours that patrons could find service would become 42.

If Branch B was open 2 hours on another evening, or from 5:00 p.m. to 7:00 p.m. on the evening when Branch A is open later, this would increase the total by another 2 hours. The total would then be 44 unduplicated hours per week.

PUBLIC SERVICE HOURS - ANNUAL TOTAL (Duplicated) (Item 58). The purpose of this question is to find out how many overlapping hours of library service were available to your patrons last year. The difference between this question and Item 64 is that here you should report every hour that any facility is open to the public during all of last year. Count main library, branches, and bookmobiles in the following way.

If, for all 52 weeks, the main library was open 50 hours a week and the two branches were open 42 hours a week (regardless of whether or not all are open at the same or different times) the total should be reported as 6,968 hours (50 + 42 + 42 = 134 times 52 weeks = 6,968). This total should be reduced for any hours that any of the facilities were closed to the public (e.g., holidays, weather emergencies, staff development days, construction, repairs, etc.).

SCHEDULE OF HOURS. Include schedule of hours for each public service outlet. You may photocopy and attach additional pages as necessary. You may also submit a printed brochure or handout of your branch/bookmobile schedule if it includes all the information requested. Bookmobile information may be included, but do not include the hours that a bookmobile is in transit. Indicate whether the outlet is a branch or bookmobile.

LIBRARY USE CHARGES AND FEES

Check items and respond with information about charges for library service.

SYSTEM MEMBERSHIP APPLICATION FORM

Complete the "System Membership Application Form" only if the library is seeking initial or continuing system membership.

If the library wishes to be qualified as a first-time member of the Texas Library System based on its budget for the current fiscal year, the library should submit its operating budget on a separate sheet of paper. The operating budget would be for the fiscal year in which January 1, 1992 falls. Follow the instructions pertaining to Items 1-15 in order to submit the budgeted information. Identify the budgeted amounts which are to be derived from city, county, school district, and other local sources.

DEADLINE FOR SUBMISSION OF THIS REPORT

This report is due ninety (90) days following the close of your local fiscal year. Three copies of the report form are attached to these instructions.

- One completed form should be returned to the Library Development Division, Texas State Library, Box 12927, Austin, Texas 78711.
- Second completed form should be sent to the System Coordinator in your area. A list of these names and addresses follows.
- Third completed form is for your library's files.
